PROFESSIONAL SUMMARY

Data Science graduate with 2 internships, 2 freelance ML engagements, and 8+ shipped projects spanning financial analytics, computer vision, LLM agents, and BI dashboards. Strong foundation in Python, SQL, machine learning, and Power BI, with a consistent record of turning raw, messy data into deployed products and measurable business insight.

TECHNICAL SKILLS

Languages & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Statistics, EDA, Feature Engineering

Machine Learning: Scikit-learn, Regression, Classification, Clustering (K-Means, PCA), Isolation Forest, Model Evaluation

Computer Vision & AI Agents: OpenCV, FaceNet, MTCNN, LLM Integration (Groq LLaMA 3.3, Claude API), Intent Classification

BI & Visualization: Power BI, DAX, Power Query, Excel, KPI Reporting

Engineering & Deployment: PostgreSQL, MySQL, Flask, FastAPI, Django, Render, GitHub/CI-CD, Jupyter

EXPERIENCE

Data Analyst Intern | *Bluestock Fintech*

- Built the Nifty 100 Financial Intelligence Platform: cleaned 12 years of data for 100 companies into a star-schema PostgreSQL warehouse powering 7 Power BI/DAX dashboards.
- Applied K-Means clustering, PCA, and Isolation Forest anomaly detection for company-level financial health scoring.

AI/ML Freelancer | *ServiceHive*

- Delivered AutoStream AI Agent — classifies social media messages by intent and routes them via Groq LLaMA 3.3 + FastAPI, with zero hardcoded logic and a live WhatsApp webhook.

ML Freelancer | *Cognizfy*

- Built restaurant rating-prediction (Random Forest), cuisine classification, and a content-based recommendation engine using cosine similarity across a 9,500+ record dataset.

Data Analyst Intern | *CodeFirst Technology*

- Performed data cleaning, validation, and EDA on business datasets; built automated Power BI dashboards for KPI and trend reporting, cutting manual reporting effort.

PROJECTS

- Real-Time Face Recognition System** (*Python, OpenCV, FaceNet*) — 3-mode enroll/train/recognize pipeline; 95%+ accuracy at 20+ FPS on CPU.
- Mutual Fund Analytics** (*Python, Power BI, DAX*) — Cleaned large-scale fund data; built dashboards for performance, risk, and category comparison.
- MBA Eligify** (*Python, Pandas, Flask*) — Live app matching CAT percentile to 70+ B-schools ranked by ROI/NIRF data.
- Pro Translator** (*Python, Claude AI, REST API*) — Deployed 20-language AI translator with text-to-speech and auto language detection.
- Netflix & Notes Dashboard** (*Power BI, DAX, Power Query*) — Interactive dashboard surfacing content and viewing-pattern trends via DAX KPIs.
- Student Marks Dashboard** (*Power BI*) — Class-wise performance dashboard identifying lowest-scoring subjects for academic planning.

EDUCATION

Bachelor of Computer Applications (BCA) — Data Science

Sri Balaji University, Pune | *Data Science, Machine Learning, Statistics, Python, Data Structures*

CERTIFICATIONS

Google Data Analytics Professional Certificate • Tata GenAI-Powered Data Analytics (Forage) • Deloitte Australia Data Analytics (Forage) • Coursera: Data Visualizations

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi | Leadership: Discipline Coordinator, Sports Council Secretary — Sri Balaji University | Open to Full-Time, Internship & Remote Roles
